

# Chris McKenna

*Designer of responsive, elegant and easy-to-use digital experiences*

## Web Designer / Developer

### **Freelance**

*June 2016 - Present | Denver, Colorado*

Working closely with clients to design and build responsive websites that meet specific requirements.

## Software Developer

### **Amatis Controls**

*June 2016 - July 2017 | Aspen, Colorado*

Designed and developed UX for the Amatis Controls Lighting system application to give clients quick and responsive control over lighting automation. Worked closely with project stakeholders, user researchers and the engineering team to ensure accessibility and user flow across web and mobile.

## Web Design Tutor

### **Freelance**

*Dec 2015 - May 2017 | Boulder, Colorado*

Helped students gain a better understanding of HTML5, CSS3, JavaScript, jQuery and the processes and concepts of web design.

## Public Relations Intern

### **United Interests**

*Sep 2015 - Dec 2015 | Boulder, Colorado*

Created and maintained media lists, conducted media outreach and interacted with reporters and bloggers for a boutique management company and record label that represents well-known artists including Elephant Revival and Making Movies.
